

Heads Up!

Nightwork for smaller activities related to pipeline

Night work areas through July

Night work hours 7 pm to 5 am

Dates subject to change

Crews have begun new nightwork activities within Scholls Ferry Road between Conestoga Drive and 135th Avenue to finish smaller tasks associated with the already installed pipeline. Crews are generally working one area at a time at multiple locations for approximately 2-4 days each for the work. The activities are tentatively scheduled to last through July. Most work for the pipeline is complete, but please be aware of other intermittent activities and paving through the fall of 2024. For updates visit www.ourreliablewater.org/mpe.
